

What devices/operating systems would the mobile apps work on?

The mobile apps for Visible Body web products are available for iOS and Android operating systems.

For the iPad, it requires iOS 6.0 or newer.

The following devices will support Visible Body mobile apps:

- iPad 2
- iPad 3rd Generation
- iPad with Retina Display (4th Generation)
- iPad Mini
- Any Android tablet with 1 GHz processor or higher and 512 MB RAM or higher

and App-Based
Programs for Anatomy,
Physiology and
Specialty Areas

Instructions to download an App and install it using your Activation Code:

1. You will need your **Activation Code** and **UserName**
2. Go to the **iTunes App Store** or **Google Play** store.
3. Search for 'visible body' and download the appropriate Mobile App.
Please select the app that is labelled "FOR ORGANIZATIONS":

4. To activate the App you will need to enter the Username into the Username field and the unique activation code for the product you have downloaded into the Password field:

Scan QR Code for quick access

Apple Devices

Android Devices

Please note:

- Activation Codes can be used only one time on one device
- They can be used on either iTunes or Google Play Apps
- Your Activation code does NOT expire (no matter how much time passes between you receiving the codes and actually getting around to using it)
- After you use an Activation Code within an app the app will be available to you for a 12 month period.
