

Digital resources for management, finance and statistics, 2016/2017

This course is addressed to **Phd students in Management** and **Phd students in Statistics**. Its purpose is to introduce University of Bologna libraries and all the services they offer, including catalogues and digital collections (databases, e-books, e-journals...) plus elements of copyright and publishing issues. The course materials (slides, tutorials...) are available on the e-learning course:

<https://elearning-cds.unibo.it/course/view.php?id=6743>

Students should log in with their institutional username (e.g. *name.surname@unibo.it*) to access. Please fill in the **pre-course questionnaire** before **January 22nd**. For help write to: christian.giardini@unibo.it
